WELCOME

Your Professional Source for Diamond Tools and Construction Equipment Since 1982

California Diamond Products (CDP), based in Sacramento, California, is an established distributor of professional diamond tools, construction equipment, replacement parts, and related products serving contractors, businesses, utilities, and public agencies.

Since 1982, CDP has provided contractors with quality products, knowledgeable application assistance, equipment service, and dependable sourcing solutions. Whether you are cutting concrete, removing asphalt, drilling utility penetrations, preparing a surface, compacting soil, or maintaining construction equipment, CDP can help identify and supply appropriate tools and equipment.

Our capabilities extend well beyond concrete cutting. We serve a broad range of construction trades, industrial applications, and infrastructure maintenance operations throughout California, Nevada, and other regional and national markets.

SECTION 01

Industries & Trades We Serve

CDP supplies tools, equipment, parts and service to professionals across construction, infrastructure and industrial maintenance.

- **Concrete Cutting & Coring Contractors**
  Flat sawing, wall sawing, core drilling, demolition, specialty cutting
- **Roofing Contractors**
  Roof cutting, removal, demolition
- **Electrical Contractors**
  Conduit trenches, concrete penetrations, equipment installation
- **Municipalities & Public Works**
  Road maintenance, sidewalk repairs, infrastructure
- **Masonry & Hardscape Contractors**
  Brick, block, stone, pavers
- **Flooring & Surface Preparation Contractors**
  Grinding, leveling, coating removal
- **HVAC & Mechanical Contractors**
  Equipment penetrations, drilling, installation
- **Industrial & Facilities Maintenance**
  Cutting, drilling, equipment repairs
- **General & Demolition Contractors**
  Concrete removal, cutting, drilling, site preparation
- **Plumbing Contractors**
  Slab cutting, underground pipe access, trenching, penetrations
- **Underground & Utility Contractors**
  Asphalt and concrete cutting, trenching, compaction
- **Paving & Road Construction Contractors**
  Pavement removal, repairs, compaction
- **Excavation & Sitework Contractors**
  Trenching, site preparation, compaction
- **Restoration & Waterproofing Contractors**
  Preparation, removal, specialty cutting
- **Equipment Rental Companies**
  Equipment, parts, tooling, service

> CDP also serves landscaping contractors, utility companies, maintenance departments, and other professional users requiring specialized tools and equipment.

SECTION 02

Cutting, Drilling, Grinding & Construction Applications

01

Concrete Cutting

Driveway and sidewalk cutting, slab cutting, reinforced concrete, flat sawing, wall sawing, handheld cutting, demolition cutting, control joints, green concrete and early-entry sawing.

02

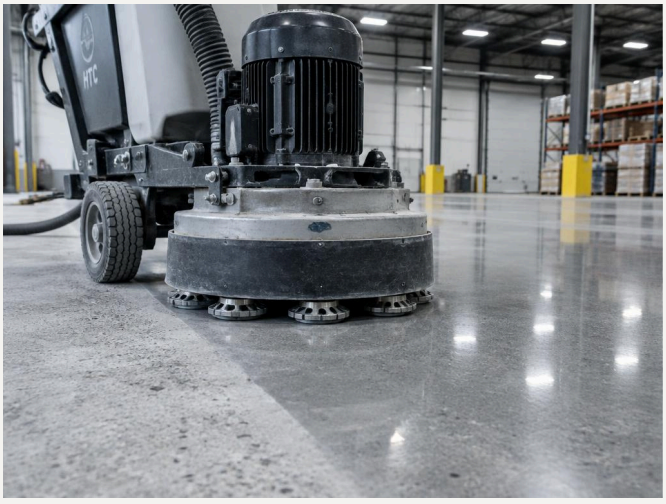
Asphalt & Road Cutting

Pavement cutting, road repairs, utility trenching, pavement removal, roadway maintenance.

03

Core Drilling

Concrete core drilling, plumbing and electrical penetrations, utility installations, anchor holes, commercial and industrial drilling.



04

Concrete Grinding & Surface Preparation

Concrete grinding, surface leveling, coating removal, surface preparation and related diamond grinding.

SECTION 02 · CONTINUED

More Applications

Masonry & Specialty Cutting

Brick, concrete block, stone, pavers, hardscape materials and specialty construction materials.

Compaction & Site Preparation

Soil and aggregate compaction, trench backfill, utility installations, asphalt repair and site preparation.

Construction Equipment Applications

Concrete placement, vibration, material mixing, wet slurry collection and recovery, water removal, power generation, surface cleaning and jobsite operations.

Application assistance: Tell CDP what material you are working with and what equipment you are using. Our team can help identify appropriate tooling, equipment and product options.

SECTION 03

Diamond Blades, Core Bits & Grinding Products

California Diamond Products supplies a comprehensive selection of diamond blades for both high-speed cutting equipment and high-horsepower professional saws.

BLADE DIAMETERS	CUTTING WIDTHS	PRO SAWS
12" – 72"	.125" – .750"	35 HP+

Sizes depend on blade type and application.

High-Speed Diamond Blades

Designed for handheld power cutters, smaller walk-behind saws, and other higher-RPM equipment used in concrete, asphalt, masonry, roofing, utility work, and general construction applications.

Professional High-Horsepower Diamond Blades

Designed for larger concrete saws, typically 35 HP and above, operating at lower blade RPMs. Available for demanding flat sawing, wall sawing, reinforced concrete, and specialty cutting applications.

Diamond Core Drilling Products

- Professional diamond core bits
- Core drilling accessories, motors and stands
- Drilling adapters and related components
- Specialty core drilling products

Diamond Grinding & Surface Preparation

- Diamond cup wheels
- Concrete grinding tools
- Surface preparation tooling
- Grinding accessories and consumables

Our experienced team helps customers match the proper diamond blade to their saw horsepower, operating RPM, material, and cutting requirements. Contact CDP for specific sizes, specifications, application recommendations, availability and pricing.

SECTION 04

Professional Construction Equipment

Morley

CONCRETE SAWS

California Diamond Products is the largest independent distributor of Morley saws in California.

- M-30 electric flat saws
- M-35 flat saws
- M-48 flat saws
- M-72 flat saws

Husqvarna

SAWS & CUTTERS

- Professional walk-behind concrete saws
- FS400LV push saw
- K4000 electric handheld cutter
- K770 and K970 handheld power cutters
- Professional flat saw equipment
- Concrete chain saws

Merit

SAWS

- M130 push saw
- Professional flat saw equipment
- ICS Concrete chain saws

STIHL

HANDHELD POWER CUTTERS

- TS 410, TS 420 and TS 910 handheld power cutters
- Related professional cutting equipment

Core Drilling Equipment

HUSQVARNA · DIAMOND PRODUCTS · DIAMOND TECH

- Core drilling motors
- Drilling stands and mounting systems
- Anchor drilling equipment
- Handheld drilling equipment and accessories

Multiquip / Mikasa

COMPACTION EQUIPMENT

Used in utility work, paving, underground construction, trench backfill and site preparation.

- MTX-70 tamping rammers
- MVC-88 vibratory plate compactors

Benner Nawman

REBAR CUTTING EQUIPMENT

- Professional rebar cutting equipment
- BNCE-20
- DC-25X

Nikro

SLURRY COLLECTION & RECOVERY VACUUMS

For wet concrete cutting, coring and related slurry applications. Not positioned as dust extraction or dry dust vacuums.

- Vacuums for wet slurry collection and recovery
- 20-gallon slurry collection equipment
- 55-gallon slurry collection systems

Additional Construction Equipment

AVAILABLE TO ORDER

- Generators, concrete vibrators and blowers
- Concrete mixers and power trowels
- Pressure washers and pneumatic tools
- Electric power tools, grinders and abrasives
- Chainsaws and fall protection equipment
- Construction accessories and consumables

Product availability: CDP stocks selected core products and equipment while sourcing additional equipment through its supplier network. Contact CDP for current availability, lead times and quotations.

SECTION 05

Equipment Parts, Service & Repairs

P

Replacement Parts

CDP supplies and sources replacement parts for concrete saws, handheld power cutters, core drilling equipment, compaction equipment, small construction engines and related professional construction equipment. Parts availability varies by manufacturer, model and component.

S

Equipment Service & Repair

CDP provides equipment repair, maintenance, troubleshooting and technical support for supported construction equipment. Our team assists contractors with replacement parts, equipment maintenance and service requirements.

O

Special Orders & Equipment Sourcing

Need equipment or a replacement part that is not regularly stocked? CDP can assist with special orders and sourcing through its established manufacturer and supplier relationships.

Request parts or service: Call our Sacramento shop or visit cdpsales.com/contact to start a parts order or service request.
